Course Syllabus
ISOM 230 Business Problem Solving and Programming
Dr. Zainab M. AlQenaie
Fall 2022

Lecture Time and Location:

ISOM 230 / 01A : Sun Tues Thurs 10:00 AM – 10:50 AM Room C1 1020

Contact Information:

Location : ISOM Department – 2nd Floor – Office No. A2 1037

Email : zmalbader@gmail.com

Office Phone : (965) 2498 8683

Office Hours : Sun Tues Thurs 11:00 AM – 11:50 AM or by email appointment

Social Media : @zmalbader

Teaching Assistant:

Name : TA Laila Haidar

Location : ISOM Department – 2nd Floor – Office No. A2 1069

Email : laila.haidar@ku.edu.kw

Office Phone : (965) 2498 4643

Office Hours : Sun 9:00 AM – 11:00 AM Mon 11:00 AM – 1:00 PM
Tue 9:00 AM – 1:00 PM Wed 11:00 AM – 1:00 PM

Tutorial : Sundays 11:00 AM – 12:50 PM

Course Description:

The purpose of this course is to introduce students to fundamental concepts and models of application development and help them understand the key processes related to building functioning applications and appreciate the complexity of application development. Students will also learn the basic concepts of program design, data structures, programming, problem solving, programming logic, and fundamental design techniques for simple business applications. Moreover, students will comprehend and practice the program development life cycle, including gathering requirements, designing a solution, implementing a solution in a programming language, and testing the completed application.

Course Learning Objectives (CLOs):

The learning outcomes for this course, listed below, relate to the learning goals of the College of Business Administration Undergraduate Program. Upon successful completion of the course, students will be able to:

CLO1. Use primitive data types and data structures offered by the development environment

CLO2. Analyze problems and choose an appropriate data structure for modeling a simple problem.

CLO3. Write simple applications that relate to a specific business domain.

CLO4. Design, implement, test, and debug a program that uses each of the following fundamental programming constructs: basic computation, simple I/O, standard conditional and iterative structures, and the definition of functions.

CLO5. Use appropriate tools to deliver and evaluate basic technical documents, presentations, and group interactions.

CLO Mapping to CBA Skill Based Competency Goals¹

CLO	Competency Goal				
	Analytical	Communication	Information Technology	Business Ethics	General Business Knowledge
1					
2	I				
3	I				
4	I				
5		A			

Type of Emphases:

- **(I)ntroduce:** Students will be introduced to the skill and their grasp of it assessed in the course.
- **(A)pply:** The course will not cover the skill. Students should have a high-level grasp of the skill and are required to apply it in the course.
- **(R)einforce:** Students should have an introductory-level grasp of the skill and the course will improve their mastery to a higher level.

Required Material:

- Textbook** : Tony Gaddis (2021) Starting out with Python, Fifth Edition, Pearson
- Additional Material** : Other material is available on Moodle
- E-Learning System** : MS Teams and Moodle Learning Management System
- Course Website** : <https://moodle.ku.edu.kw/login/index.php>

Course Requirements and Policies:

Tests: There are total of five tests (lowest will be dropped). These tests are scheduled on the due dates of the respective chapters. No make-up tests will be given.

Grades: After a grade is posted, you will have two days to discuss your submission or absence with your instructor or teaching assistant. After that, the grade is final.

Emails: Emails sent must include a subject, be addressed properly, and signed with full name, course and section number. Otherwise, the email will be discarded. Email etiquette could be accessed online on: <http://is.cba.edu.kw/130/email.htm>.

Class Preparation: It is very important that students are prepared for each class period. Check MS Teams and Moodle before each class for the required reading or video.

Nepotism: By registering for this class, you agree to abide by all its regulations including the zero tolerance of nepotism. By agreeing to this rule, you understand that your grade will be decreased a full letter grade (that is: goes from an "A" to a "B" for example) if anyone (family, friends, etc.) attempts to influence your grade (with or without your knowledge).

College of Business Administration
Information Systems and Operations
Management Department

Attendance and Participation: Every student in this course must abide by the Kuwait University Policy on Attendance (published in the Student Guide, Chapter 3, Section 13). A copy of the student guide can be accessed online on:

http://kuweb.ku.edu.kw/cs/groups/ku/documents/ku_content/kuw055940.pdf

Participation will be assessed in each class period. Your class participation and attendance will both contribute to your overall grade. Be on time for the lecture. At the beginning of each lecture, attendance will be taken, anyone coming after that time will be considered as late. Being late three times is equivalent to one absence. Absence with a valid excuse will still count as an absence.

Students must attend the classes they are enrolled in (i.e., no informal switching between sections for the same faculty member or between different faculty members). The same is applied to taking exams.

Cheating and Plagiarism: Every student in this course must abide by the Kuwait University Policy on Cheating and Plagiarism (published in the Student Guide, Chapter 3, Section 2). A copy of the student guide can be accessed online on:

http://kuweb.ku.edu.kw/cs/groups/ku/documents/ku_content/kuw055940.pdf

Please carefully note all sources and assistance when you turn in your work. Under no circumstances should you take credit for work that is not yours. You should neither receive nor give any unauthorized assistance on any deliverable. Tools may be used include E-plagiarism system (Turnitin: www.turnitin.com) and Cloud system (OneDrive of Microsoft). If you have any questions about what constitutes “unauthorized assistance” please email me before the deliverable is submitted.

Mobiles: Students should turn their mobile silent at the beginning of each class.

Special Needs: If you are a special needs student (have any disability), please inform your instructor.

Writing Style: Students must refer to APA writing style for their assignments and report writing. Refer to the English Language Unit for help.

Make-up: No make up for tests. Exams will be executed according to plans. In case Moodle fails for uncontrolled reasons, the exam will be re-scheduled. If you have Covid during an Exam, then submit documentation of PCR/Civil ID to decide on your case. You must inform your instructor and share the results of a PCR test before and exam to be eligible for a make-up.

Grading:

The scores in this course will be the weighted average of the following items:

Weight	Description
5%	Attendance, Discussion, and Participation
15%	Lab tutorial
20%	Tests (best 4 out of 5)
20%	Group project
40%	Final exam
100%	Total

Grade Distribution:

Grade	Range
A	≥ 95
A-	≥ 90 and < 95
B+	≥ 87 and < 90
B	≥ 83 and < 87
B-	≥ 80 and < 83
C+	≥ 77 and < 80
C	≥ 73 and < 77
C-	≥ 70 and < 73
D+	≥ 65 and < 70
D	≥ 60 and < 65
F	< 60

College of Business Administration
Information Systems and Operations
Management Department

Course Outline:

Subject	Chapter	Main Topics
Introduction to Computers and Programming	1	Hello World, hardware and software, data storage, programs, using Python
Input, Processing, and Output	2	Design, comments, variables, calculations, concatenation, print function
Decision Structures and Boolean Logic	3	if statement, if-else statement, nested decision structures, logical operators, Boolean variables
Repetition Structures	4	Condition-controlled loop (while), count-controlled loop (for), input validations loops, nested loops
Functions	5	Defining functions, calling functions, local and global variables, passing arguments, value-returning functions
Files and Exceptions	6	File input and output, process files using loops, processing records, exceptions
Lists and Tuples	7	Sequences, lists operations, tuples
Strings	8	String operations, string slicing and manipulation
Dictionaries and Sets	9	Creating and manipulating dictionaries and sets

Important Dates:

Date/Time	Event
November 3 rd , 2022	Last to Withdraw
December 18 th , 2022	Final Project
December 22 nd , 2022	Last day of classes
December 27 th , 2022 (11 am – 1 pm)	Final Exam

CBA Vision:

To be the leading provider of quality business education in the region.

CBA Mission:

As part of Kuwait University, the leading national institution of higher education, the College of Business Administration is committed to providing quality business education, engaging in research and community services to contribute to the socio-economic development of the country.

CBA Competency Goals:

1. Analytical Competency: A CBA graduate will be able to use analytical skills to solve business problems and make a well-supported business decision.

Student Learning Objectives:

- 1.1. Use appropriate analytical techniques to solve a given business problem.
- 1.2. Critically evaluate multiple solutions to a business problem.
- 1.3. Make well-supported business decisions.

2. Communication Competency: A CBA graduate will be able to communicate effectively in a wide variety of business settings.

Student Learning Objectives:

- 2.1. Deliver clear, concise, and audience-centered presentations.
- 2.2. Write clear, concise, and audience-centered business documents.

3. Information Technology Competency: A CBA graduate will be able to utilize Information Technology for the completion of business tasks.

Student Learning Objectives:

- 3.1. Use data-processing tools to analyze or solve business problems.

4. Ethical Competency: A CBA graduate will be able to recognize ethical issues present in business environment, analyze the tradeoffs between different ethical perspectives, and make a well-supported ethical decision.

Student Learning Objectives:

- 4.1. Identify the ethical dimensions of a business decision.
- 4.2. Recognize and analyze the tradeoffs created by application of competing ethical perspectives.
- 4.3. Formulate and defend a well-supported recommendation for the resolution of an ethical issue.

5. General Business Knowledge: A CBA graduate will be able to demonstrate a basic understanding of the main business disciplines' concepts and theories.

Student Learning Objectives:

- 5.1. Acquire a fundamental understanding of knowledge from the main business disciplines (e.g. finance, accounting, marketing, and management information systems, among others).
